1. Introduction

- 1.1 The City Council has a statutory responsibility to make available any information it has collected for monitoring purposes as soon as possible after the information becomes available¹. This report provides information on the supply of retail floor space in Worcester for the period 1st April 2016 – 31st March 2017, forming part of the City Council's annual monitoring programme.
- 1.2 Retail floor space can be created or lost as a result of redevelopment or the change of use of existing floor space. This report seeks to record all changes to retail floor space within the City during the monitoring period. The monitor also documents the possible future supply of new retail development and in future years will report the progress in the implementation of previously approved schemes.
- 1.3 The Government sets out its view of how planning should deliver economic growth in the National Planning Policy Framework. This requires the planning system to contribute to the building of a strong, responsive and competitive economy, by ensuring that sufficient land of the right type and in the right locations is available to allow growth and innovation. This applies to all parts of the economy including the retail sector.

¹ Paragraph 7, Part 8, The Town and Country Planning (Local Planning (England) Regulations 2012

2 Background

- 2.1 The purpose of this monitoring report is to consider what progress has been made each year in the delivery of development proposed by the South Worcestershire Development Plan (SWDP) and what other changes have occurred in the use of retail floor space that might inform the delivery of this plan or future plans. It can also be used to assess the effectiveness of retail policies, SWDP9 and 10, in maintaining the vitality and variety of existing retail centres identified in the plan.
- 2.2 This report only includes those retail units that are within shopping centres or retail frontages that are defined on the South Worcestershire Development Plan Policies Map. Retail units in locations such as Blackpole and Elgar Retail Parks and corner shops which are not part of these shopping centres are not included within this monitoring report.
- 2.3 Retail policies within the SWDP and the National Planning Policy Framework are relevant to the consideration of the changes reported in this Retail Monitor.

South Worcestershire Development Plan

- 2.4 The SWDP contains two policies that seek to ensure that Worcester retains a strong retail function to serve both local communities and the whole population of South Worcestershire. In addition to these SWDP3 sets targets for the provision of additional retail floor space over the plan period. New retail floor space in South Worcestershire should be principally focused within Worcester City Centre where the evidence suggests an additional 26,726 square meters of additional comparison retail floor space will be required before 2030. Over 8,000 square metres of this requirement has already been provided at St Martins Quarter.
- 2.5 Policy SWDP9 seeks to provide a basis to consider proposals for new retail floor space and ensure that any such proposals support the vitality of existing centres.

SWDP9 states:

- A. New retail, leisure and tourism development that contributes to achieving a high-quality sustainable network of urban and rural settlements will be promoted and supported. Retail and other town centre development should be of a scale appropriate to its location.
 - B. Measures to secure the vitality and viability of the City Centre and Town Centres as defined on the Policies Map (Worcester, Droitwich Spa, Evesham, Great Malvern, Pershore, Tenbury Wells and Upton-upon-Severn) will be set out in Supplementary Planning Documents, Neighbourhood Plans and Local Development Orders as appropriate. These measures will include environmental enhancements and activities that seek to improve the visitor experience.
 - C. Proposals for retail or leisure facilities within the City Centre and Town Centres will need to demonstrate that they are:
 - i. Contributing to a comfortable, safe, attractive and accessible environment.
 - ii. Making full use of the premises, avoiding vacant floors over shops and providing a separate entrance for office or residential use of upper floors, where they are within the reasonable control of the applicant.
 - D. Development proposals linked to the evening and night time economy will be supported provided they:
 - i. Do not result in a clustering of dead frontages during the daytime;
 - ii. Do not, on their own, or cumulatively, result in an unacceptable impact on neighbouring uses by reason of disturbance, traffic or safety;
 - iii. Do not, on their own, or cumulatively, result in an inappropriate balance of uses.
- 2.6 Policy SWDP10 sets a South Worcestershire threshold for the application of the National Planning Policy Framework impact test for new retail floor space and sets criteria for the consideration of applications for non A1 retail uses in the existing shopping centres within South Worcestershire.

SWDP10 States:

- A. Retail and leisure development that is appropriate in location and scale, having regard to the hierarchy of centres set out in Table 5 below, will be supported.

- B. Any retail or leisure development proposal of over 1,000 square metres net that is located outside the defined centres listed in Table 5 below must be accompanied by a Retail Impact Assessment.
- C. Planning permission for retail and leisure development outside the centres listed in Table 5 below will not be granted unless the applicant has demonstrated that:
- i. The sequential test set out in paragraph 24 of the Framework, or any subsequent amended test in national planning policy for the consideration of retail and leisure development, has been satisfied.
 - ii. The scale of development is appropriate to the location. The development would have no significant adverse impact on the vitality and viability of a centre.
 - iv. Access by all travel modes and particularly bus, cycle and walking is convenient and safe, taking into account any improvements provided by the development.
- D. Within the Primary Shopping Frontages, as shown on the Policies Map, change of use from retail (use class A1) or the extension of existing non-A1 uses into adjoining A1 premises at ground floor level will not be permitted.
- E. Within the Secondary Shopping Frontages, as shown on the Policies Map, change of use from retail (use class A1) to non-retail uses in classes A2, A3, A4, A5, D1, D2 will be permitted provided:
- i. The proposed use will not result in a continuous frontage of two or more non-A1 retail units (units are defined as a shop front width of about 6 metres; larger units will be assessed in terms of unit length).
 - ii. A minimum of 50% of units in each defined Secondary Shopping Frontage are retained in A1 retail use.
 - iii. The proposed use will not result in the proportion of units in the street (or part of the street defined as a secondary shopping frontage) in A3, A4 and A5 use exceeding 30%.
 - iv. A shop window will be retained at all times.
 - v. The proposal would not preclude the full use of the premises, avoiding vacant floors over ground floor uses and providing a separate entrance for office,

leisure or residential use of upper floors, where they are within the reasonable control of the applicant.

vi. Ground floor residential uses do not form part of the proposal.

F. The following Shopping Centres are shown on the Policies Map:

Table 5 – Town, District, Local and Neighbourhood centres

G. Within the centres listed in Table 5 above, the conversion of retail floor space outside the Primary and Secondary Shopping Frontages to alternative uses not providing a retail or commercial service will not be permitted unless the equivalent replacement floorspace is provided as part of the development proposal.

H. Within the district and local centres listed in Table 5 above, in order to preserve the variety and vitality of local shopping opportunities, the change of use of premises outside the Primary and Secondary Shopping Frontages from A1 to A2, A3, A5, D1 or D2 uses will not be permitted:

- i. where it would result in two or more non-A1 retail units in a row; or
- ii. where it would result in less than 50% of all units within the centre being in A1 use.

I. The change of use of village, neighbourhood and corner shops to non-retailing uses will only be permitted if there is an alternative equivalent facility within safe walking distance or evidence is presented that the premises are no longer viable for any retail or community use.

J. Planning permission for new village and neighbourhood shops will be granted provided they are of an appropriate scale and it can be demonstrated that they will not have a significant adverse impact on the vitality or viability of any local centre.

K. New or expanded farm shops, garden centres or petrol filling stations will be permitted provided:

- i. They would not have a significant adverse impact on the viability or vitality of any defined centre or other local shopping facilities.

- ii. In the case of farm shops, the proposal would make use of redundant or under-used buildings and the range of goods to be sold is restricted to foodstuffs, plants and rural craft products produced locally.
 - iii. In the case of garden centres, the site is accessible by walking, cycling and public transport.
- L. The creation of new, or extensions to existing, garden centres or farm shops in the open countryside and unrelated to a settlement will only be permitted if the proposed development is ancillary to, and on the site of, an existing horticultural business or existing farming operation.

National Planning Policy Framework

- 2.7 The National Planning Policy Framework contains a section 'ensuring the vitality of town centres' and another section 'promoting healthy communities' which have particular significance for the application of retail policies within the SWDP. The National Planning Policy Framework requires local planning authorities to promote competitive town centres and manage their growth including through the allocation of sites for the main town centre uses, e.g. shops, offices and entertainment. The sequential and impact tests are the main planning tool to ensure development enhances rather than undermines existing centres. Variety and vitality are seen nationally as the essential elements of successful retail centres. The National Planning Policy Framework section promoting healthy communities requires local planning policies and decisions to promote strong neighbourhood centres and guard against the loss of valued facilities and services.
- 2.8 Many changes to the way retail premises are used do not require a specific planning application. These changes are permitted development and to ensure the City Council is aware of all changes that affect the retail offer and facilities within the city every shopping centre within the city is surveyed at least annually. See schedules 1 to 5 for the results of the latest surveys.

2.9 The principal retail use classes are:

A1 General sale of goods to visiting members of the public,

A2 Banks and other services to visiting members of the public,

A3 Cafés and restaurants, consumption of hot food on the premises,

A4 Pubs and other drinking establishments,

A5 The provision of hot food for consumption off the premises to visiting members of the public.

2.10 The principal permitted development rights for the change of use of retail premises are listed below. Many of these require a developer to apply for a determination as to whether prior approval is necessary. Prior approval allows the local planning authority to seek a prior approval application in certain circumstances and to consider a limited range of matters, e.g. where the proposed change is likely to result in a severe highway impact. An applicant can appeal the decision of a local planning authority to require a prior approval application or the refusal of a prior approval application.

Table 1 Permitted Development for Retail Premises.

Approved Use	Permitted Change	Conditions/Limitations
A1	To A2 or A3	A3 Up to 150 square metres floor area No change of use to a betting shop
A2	To A1 or A3	A3 Up to 150 square metres floor area
A3	To A1 or A2	No change of use to a betting shop
A4	To A3, A2 or A1	Unless the building has been registered as a community asset
A5	To A3, A2 or A1	
Amusement Arcade	No change permitted	
Casino	To A1, A2 or A3	A3 Up to 150 square metres floor area
Betting shop	To A1, A2 or A3	A3 Up to 150 square metres floor area
Pay day loan shop	To A1, A2 or A3	A3 Up to 150 square metres floor area

2.11 It is also permitted development to convert retail premises into up to two flats providing a retail element is retained. Any flats created via this permitted development right can also be changed back to retail use as permitted development.

2.12 Permitted development rights do not remove the need for listed building, conservation area or advertising consent which will apply to many proposed changes to premises within Worcester's retail centres.

3 Retail Development in 2016/17

3.1 Position at 31st March 2017

3.1.1 The total retail sales area within the designated centres in the City is at least 132,177 square meters. This figure is obtained from the Valuation Office Agency website and doesn't include the sales area of licenced premises.

3.2 Site Allocations

3.2.1 The SWDP allocates 3 sites to accommodate an anticipated need for 26,726 square metres of additional retail floor space between 2006 and 2030 within Worcester, 15,196 square metres has already been completed principally at St Martin's Quarter and there is a further 7,633 square metres of consented floor space that could in theory be built out. It is unlikely however that much of this consented floor space will come forward as planned as it is the remaining elements of implemented development approved before the global financial crash in 2007.

3.2.2 Table 2 Worcester City SWDP Retail Site Allocations

Policy Reference	Site Location	Site area (ha)
SWDP44/1	Cathedral Square: To allow for redevelopment, refurbishment, expansion of the existing shopping centre. To provide greater connectivity with the Cathedral. Protect and enhance the setting of Worcester Cathedral and neighbouring listed buildings	1.23
SWDP44/2	Fire Station / Crown Gate / Angel Place / The Butts: To allow for redevelopment, refurbishment, expansion of the existing shopping centre. To provide greater connectivity with the rest of the city centre, the riverside and the University Campus.	2.85
SWDP44/3	Trinity House / Cornmarket: To allow for redevelopment for retail and other uses with the creation of an important open space, giving improved connections to St Martin's Quarter and Shrub Hill Station.	0.98

3.3 New Build

3.3.1 Major retail development is a fairly uncommon form of development with many town centres trading highly successfully for several decades without any major additional floor space being added to the total stock of floor space. The most recent significant growth in retail floor space within the city is St Martin's Quarter where approximately 16,000 square meters of retail space and 2,000 square meters of leisure space was developed in 2011/12 on an edge of centre site.

3.3.2 The Cathedral Plaza development is nearing completion and while this is a welcome development this scheme is replacing long vacant A1 and hotel floor space with an equivalent amount of A3 & A4 floor space.

3.3.3 There are currently 9 approved developments with a total net floor area of 7,633 square metres which could add to the total stock of retail floor space within the city, see schedule 6 page 49.

3.4 Change of Use

3.4.1 In 2016/17 10 shop units changed use class, 9 units changed from A1 to another use, 2 units to A2, 1 unit to A5 , 1 unit to B1 and 5 units to Sui Generis.

3.4.2 On the 31st Mar 2017 there were 9 unimplemented consents to change the use of retail units, 6 from A1 to another use and none from another use to A1.

3.5 Vacant Premises

3.5.1 The annual retail survey shows that there are approximately 112 retail units unoccupied, 62 in Worcester City Centre, 11 in St John's District Centre, 21 in the City Centre Approach Corridors and 3 in the Local Shopping Centres and 15 in the Neighbourhood Shopping Centres. The total number of vacancies is 11.8% of all retail units. 69 of the 112 vacant units have been vacant for more than one year, this is 7.2% of all units surveyed which is above the national

average for long term vacancies which was 6.6% according to data published by Colliers International in 2017

3.6 Limitations

3.6.1 While the City Council officers can monitor planning applications and physical changes to retail premises in the city there are other indicators of the healthy of retail centres such as rental values, yield, turnover and footfall. There are a couple of organisations which collect this information but the City Council does not subscribe to their services. This report is therefore not able to include this information nor provide any comparison with other retail centres whose catchment area includes Worcester, e.g. Merry Hill and Cheltenham.

3.6.2 A recent report from the commercial property agents Fisher German did contain some information about the relative position of retailing in the city. Information in this report was prepared to inform the refresh of the City Centre Masterplan. It is uncertain if this information can be updated in future years. This report reveals that:

- a. Worcester High Street rental values, £130 per square foot are well below the values achieved in Birmingham (£250) and Cheltenham (£200). Rental values in Gloucester (£125) are similar to Worcester.
- b. Worcester High Street yields (the ratio of capital costs to rental returns) are similar to those achieved in Birmingham and Gloucester (5.25%). Cheltenham has lower yields which must be a result of much higher property values in the town compared to elsewhere.

4. Previous Retail Monitoring

4.1 The last published City of Worcester Retail Monitor was in 2004. This and previous retail monitoring reports focused on the City Centre with only limited reporting on the situation in smaller shopping centres. Table 3 below shows comparative data between 2004 and 2017. Large changes, with the exception in the growth of food and drink uses in St Johns, are as likely to be the result of differences in the way data was collected as any actual change. The apparent

reduction in the retail sales area within the City Centre for example is affected by changes such as counting gross or net floor area the inclusion or exclusion of licenced premises and possibly a number of other accounting practices.

4.2 Table 3 Retail Monitor comparison 2004 & 2017

City Centre	2004	2017	Change
Number of Units	437	497	+ 60
Vacant	9.4%	12.5%	+ 3.1%
Floor Space	120,900sqm	90,130sqm	-30,770
St Johns			
Number of Units	92	90	-2
Vacant	9	11	+2
Convenience	10	8	-2
A3, A4, A5	13	20	+7
Local & Neighbourhood Centres			
Number of Units	190	196	+6
Vacant	6.3%	9.2%	+2.9%

5. Conclusions

- 5.1 This is the first annual City of Worcester retail monitoring report since 2004. On the 31st March 2017 there was 7,633 square metres of net additional floor space consented but much of this relates to outstanding floor space within part implemented schemes and this may never be built out. One major retail scheme was under construction at Cathedral Square which will provide 2,568 square metres of new and refurbished A3 units and a new gym, 849 square metres. This major scheme does not however increase the net retail floor space within the City Centre as it replaces part of a previously existing shopping mall.
- 5.2 There was little change in retail uses within the City in 2016/17 with only 10 units surveyed has having changed use over a twelve month period. There were a further 9 approved but unimplemented retail changes of use at the end of March 2017.
- 5.3 11.8% of all retail units surveyed were vacant, some of these were being refurbished and a few are long term vacancies and not currently being

marketed. This compares to national average retail vacancy rate of 12.2% in June 2017 published by the Local Data Company.

- 5.4 While there is a popular view about the rapidly changing nature of retailing this change is not so rapid as to show obvious trends over a single year and it may take at least five years before any conclusions can be drawn from the retail monitor about the direction of travel of retailing within the city.

Schedule One City Centre Central Shopping Area

There are 497 separate ground floor premises within the City Centre, a significant number of units have a street frontage to more than one street but for the purposes of this monitor each shop or other use is counted once regardless of the size, or length of street frontage, of the unit.

Between April 2016 and March 2017 two units (93 and 101 High Street) were lost as a result of the adjacent units extending to include these units and one unit, 3a Charles Street, was created as a result of the sub-division of 3 Charles Street into two units.

In March 2017 there were 62 vacant retail units within the City Centre and 44 of these units had been vacant for more than one year. 17 vacant units were reoccupied during 2016/17 and 18 units became vacant. See tables 1 and 2 below for a full breakdown of the number and uses of units.

One unit (33 Chapel Walk) changed use between April 2016 and March 2017. Within the Primary Retail Frontages which include only 211 of the total 497 units in the city centre and seven units in the Primary Retail Frontages have changed use since April 2013, two from A1 to A2, four from A1 to A3 and one from A1 to D1.

Table 3: City Centre Ground Floor Uses Summary.

Total number of Units	497				
Vacant Units	62	12.47%	Vacant for more than 1 year	44	8.85%

Schedule Two St John's District Shopping Centre

Between July 2016 and July 2017 five additional units within St John's District Shopping Centre became vacant and only one vacant unit secured a new tenant. No units changed use in the past year but two units (1 Malvern Road and 81/83 St John's) are currently being refurbished with an approved change of use from A2 to A5 at 1 Malvern Road likely to be implemented once building work is complete.

See tables 3 to 4 below for a full breakdown of the number and uses of units.

Schedule Five City Centre Approach Corridors

The City Centre approach corridors are Lowesmoor, Sidbury and The Tything/Upper Tything. The approach corridors include two properties in Bath Road and five properties in Barbourne Road. There are retail premises beyond the areas included in the Approach Corridors, such as The Foregate and Foregate Street. These retail units are not within areas identified on the South Worcestershire Development Plan Policies Map and for this reason have not be included in this monitor which is primarily concerned with the effects and effectiveness of adopted planning policy.

There are 166 separate ground floor premises within the City Centre Approach Corridors.

In July 2017 there were 21 vacant retail units within the City Centre and 11 of these units had been vacant for more than one year. 6 vacant units were reoccupied during 2016/17 and 10 units became vacant. See tables 9 and 10 below for a full breakdown of the number and uses of units.

Table 11: City Centre Approach Corridors Ground Floor Uses Summary.

Total number of Units	166				
Vacant Units	21	12.65%	Vacant for more than 1 year	11	6.6%
A1	88	53%			
A2	20	12%

Glossary

Appropriate Scale	A size which is similar to neighbouring development and development in the nearest retail centre.
Commercial Service	Any service which can be purchased by visiting a shop, e.g. financial services, holidays and personal services such as nail bars.
Comparison Retail	The sale of goods that can be used more than once, e.g. clothing, furniture & electrical appliances.
Dead Frontages	Any retail or other premises that are not open during all or part of the day.
Footfall	The number of pedestrians who pass retail premises.
Impact Test	A test to assess the consequence of new retail premises on financial viability of existing shops.
Major Retail Development	A development that involves more than 1,000 square metres of retail floor space.
Permitted Development	Development that the Government has decided does not need a planning application before it can be implemented.
Sequential Test	A test to assess if there is a more suitable site for a proposed retail development within or closer to an existing retail centre.
Significant Adverse Impact	Any consequence of allowing a development which would threaten the continued success of existing shops or shopping centres.
Travel Modes	The ways people can travel, e.g. by car, by bus, on a bike or walking.
Turnover	The amount of money a shop collects from customers.
Vitality	A combination of factors used to assess a shopping centre, e.g. range of shops and services, footfall and turnover.
Yield	The ratio of income to investment.
