

Terms and Conditions for Planning Search Function and Making Comments on Planning Applications

Background

Worcester City Council makes available applications online for viewing by interested parties and provides the function for comments to be made. This function is bound by the following terms and conditions.

Planning Search Function

This function is not intended to replace Worcester City Council's statutory register of planning applications. Access to Historic records is available; please consult the Planning Register Overview for information on how to access this data.

The online planning history contained within the site at present is incomplete and must not be used as a substitute for carrying out a formal Land Charges Search. No responsibility will be taken for any errors or omissions in the planning history information obtained from the Planning Search Function.

Similarly, the information contained within Planning Search Function does not constitute in any way a formal notification of a planning decision, and as such any actions taken as a result of information displayed on the site are undertaken entirely at the viewer's own risk.

Whilst all plans and drawings on this web site are scans of scaled originals, the images will not appear at any particular scale on your computer screen. Figured dimensions, where they appear, are the only relative indications of measurements on these images. Most but not all PDF scaled plans carry a tool for you to use to measure unmarked dimensions notes on how to use the online measuring tool have been prepared.

Copyright Notice

Plans, drawings and material submitted to the Council are protected by the Copyright Acts (Section 47, 1988 Act). You may only use material which is downloaded and/or printed for consultation purposes, to compare current applications with previous schemes and to check whether developments have been completed in accordance with approved plans. Further copies must not be made without the prior permission of the copyright owner.

Making Comments on Applications

All comments received by the City Council on a submitted application are treated as public documents and will in conjunction with the name and address of the person submitting the comments, form a public document and be displayed online for viewing by members of the public. As this is the case it is important that you only provide information that you are happy being placed in the public domain. Any comments that are inflammatory or slanderous will not be displayed online or considered by the Case Officer.

The City Council will fulfil its requirements under the Data Protection Act and take all reasonable steps to redact any personal information such as signatures, email addresses and phone numbers etc.
