

## Arboricultural Consultants

### Please note

This is not a Council approval list therefore, the information in this document is provided on the understanding that the Council or any of its Officers cannot accept liability for any work or advice by the Contractors on this list.

### Guidance notes

1. Inclusion of a consultant on this list should **not** be accepted as proof of insurance cover. A consultant should provide a current receipt in respect of Public Indemnity and Public Liability Insurance on demand.
2. Before inviting consultants to tender, decide what you wish them to provide for you. Be clear in describing what you wish of the consultant. To avoid confusion, put it in writing and be sure all parties involved agree to the service that is to be provided.
3. Consider obtaining more than one quotation, this will allow you to compare prices and choose the right Consultant for your particular requirements. Remember the price may not be the governing factor.
4. When asking for a quotation, indicate your timeline for completion, the Consultant will be able to advise whether this is going to be practical.
5. Do not leave it too long before accepting a quotation. If possible, let the Consultant know your decision, be it acceptance or refusal, within 7-10 days and make clear the terms of acceptance.
6. This is not an exhaustive list. More Consultants can be found on the Arboricultural Association's website: <https://www.trees.org.uk/Registered-Consultant-Directory>

For further advice or information please contact:  
Alvan J. Kingston on 01905 722195
