1. Introduction

- 1.1 The City Council has a statutory responsibility to make available any information it has collected for monitoring purposes as soon as possible after the information becomes available¹. This report provides information on the supply of retail floor space in Worcester for the period 1st April 2018 – 31st March 2019, forming part of the City Council’s annual monitoring programme.
- 1.2 Retail floor space can be created or lost as a result of redevelopment or the change of use of existing floor space. This report seeks to record all changes to retail floor space within the City during the monitoring period. The monitor also documents the possible future supply of new retail development and reports the progress in the implementation of previously approved schemes.
- 1.3 The Government sets out its view of how planning should deliver economic growth in the National Planning Policy Framework. This requires the planning system to contribute to the building of a strong, responsive and competitive economy, by ensuring that sufficient land of the right type and in the right locations is available to allow growth and innovation. This applies to all parts of the economy including the retail sector.

¹ Paragraph 7, Part 8, The Town and Country Planning (Local Planning (England) Regulations 2012

2 Background

- 2.1 The purpose of this monitoring report is to consider what progress has been made each year in the delivery of development proposed by the South Worcestershire Development Plan (SWDP) and what other changes have occurred in the use of retail floor space that might inform the delivery of this plan or future plans. It can also be used to assess the effectiveness of retail policies, SWDP9 and 10, in maintaining the vitality and variety of existing retail centres identified in the plan.
- 2.2 This report is generally only concerned with those retail units that are within shopping centres or retail frontages that are defined on the South Worcestershire Development Plan Policies Map. Retail units in locations such as Blackpole and Elgar Retail Parks and corner shops which are not part of these shopping centres are not included within this monitoring report.
- 2.3 Retail policies within the SWDP and the National Planning Policy Framework are relevant to the consideration of the changes reported in this Retail Monitor.

South Worcestershire Development Plan

- 2.4 The SWDP contains two policies that seek to ensure that Worcester retains a strong retail function to serve both local communities and the whole population of South Worcestershire. In addition to these SWDP3 sets targets for the provision of additional retail floor space over the plan period. New retail floor space in South Worcestershire should be principally focused within Worcester City Centre where the evidence suggests an additional 26,726 square meters of comparison retail floor space will be required before 2030. Over 8,000 square metres of this requirement has already been provided at St Martins Quarter.
- 2.5 Policy SWDP9 seeks to provide a basis to consider proposals for new retail floor space and ensure that any such proposals support the vitality of existing centres.

SWDP9 states:

- A. New retail, leisure and tourism development that contributes to achieving a high-quality sustainable network of urban and rural settlements will be promoted and supported. Retail and other town centre development should be of a scale appropriate to its location.
 - B. Measures to secure the vitality and viability of the City Centre and Town Centres as defined on the Policies Map (Worcester, Droitwich Spa, Evesham, Great Malvern, Pershore, Tenbury Wells and Upton-upon-Severn) will be set out in Supplementary Planning Documents, Neighbourhood Plans and Local Development Orders as appropriate. These measures will include environmental enhancements and activities that seek to improve the visitor experience.
 - C. Proposals for retail or leisure facilities within the City Centre and Town Centres will need to demonstrate that they are:
 - i. Contributing to a comfortable, safe, attractive and accessible environment.
 - ii. Making full use of the premises, avoiding vacant floors over shops and providing a separate entrance for office or residential use of upper floors, where they are within the reasonable control of the applicant.
 - D. Development proposals linked to the evening and night time economy will be supported provided they:
 - i. Do not result in a clustering of dead frontages during the daytime;
 - ii. Do not, on their own, or cumulatively, result in an unacceptable impact on neighbouring uses by reason of disturbance, traffic or safety;
 - iii. Do not, on their own, or cumulatively, result in an inappropriate balance of uses.
- 2.6 Policy SWDP10 sets a South Worcestershire threshold for the application of the National Planning Policy Framework impact test for new retail floor space and sets criteria for the consideration of applications for non A1 retail uses in the existing shopping centres within South Worcestershire.

SWDP10 States:

- A. Retail and leisure development that is appropriate in location and scale, having regard to the hierarchy of centres set out in Table 5 below, will be supported.

- B. Any retail or leisure development proposal of over 1,000 square metres net that is located outside the defined centres listed in Table 5 below must be accompanied by a Retail Impact Assessment.
- C. Planning permission for retail and leisure development outside the centres listed in Table 5 below will not be granted unless the applicant has demonstrated that:
- i. The sequential test set out in paragraph 24 of the Framework, or any subsequent amended test in national planning policy for the consideration of retail and leisure development, has been satisfied.
 - ii. The scale of development is appropriate to the location. The development would have no significant adverse impact on the vitality and viability of a centre.
 - iv. Access by all travel modes and particularly bus, cycle and walking is convenient and safe, taking into account any improvements provided by the development.
- D. Within the Primary Shopping Frontages, as shown on the Policies Map, change of use from retail (use class A1) or the extension of existing non-A1 uses into adjoining A1 premises at ground floor level will not be permitted.
- E. Within the Secondary Shopping Frontages, as shown on the Policies Map, change of use from retail (use class A1) to non-retail uses in classes A2, A3, A4, A5, D1, D2 will be permitted provided:
- i. The proposed use will not result in a continuous frontage of two or more non-A1 retail units (units are defined as a shop front width of about 6 metres; larger units will be assessed in terms of unit length).
 - ii. A minimum of 50% of units in each defined Secondary Shopping Frontage are retained in A1 retail use.
 - iii. The proposed use will not result in the proportion of units in the street (or part of the street defined as a secondary shopping frontage) in A3, A4 and A5 use exceeding 30%.
 - iv. A shop window will be retained at all times.
 - v. The proposal would not preclude the full use of the premises, avoiding vacant floors over ground floor uses and providing a separate entrance for office,

leisure or residential use of upper floors, where they are within the reasonable control of the applicant.

vi. Ground floor residential uses do not form part of the proposal.

F. The following Shopping Centres are shown on the Policies Map:

Table 5 – Town, District, Local and Neighbourhood centres

City and Town Centres	Worcester , Great Malvern, Droitwich Spa, Evesham, Pershore, Upton-upon-Severn, Tenbury Wells
District Centres	Barnards Green, Malvern Link, Broadway, St John's
Local Centres	Fairfield, Westlands, Witton, Fulbert Road, Ankerage Green, Barbourne, Cranham Drive, St Peter's
Neighbourhood Centres	Cheltenham Road, Shrubbery Road, Ambleside Drive, Bath Road, Brickfields, Brindley Road, Canada Way, Derwent Close, Dines Green, Kilbury Drive, London Road, Monarch Drive, Northwick, Rainbow Hill

G. Within the centres listed in Table 5 above, the conversion of retail floor space outside the Primary and Secondary Shopping Frontages to alternative uses not providing a retail or commercial service will not be permitted unless the equivalent replacement floorspace is provided as part of the development proposal.

H. Within the district and local centres listed in Table 5 above, in order to preserve the variety and vitality of local shopping opportunities, the change of use of premises outside the Primary and Secondary Shopping Frontages from A1 to A2, A3, A5, D1 or D2 uses will not be permitted:

- i. where it would result in two or more non-A1 retail units in a row; or
- ii. where it would result in less than 50% of all units within the centre being in A1 use.

I. The change of use of village, neighbourhood and corner shops to non-retailing uses will only be permitted if there is an alternative equivalent facility within safe walking distance or evidence is presented that the premises are no longer viable for any retail or community use.

J. Planning permission for new village and neighbourhood shops will be granted provided they are of an appropriate scale and it can be demonstrated that they

will not have a significant adverse impact on the vitality or viability of any local centre.

- K. New or expanded farm shops, garden centres or petrol filling stations will be permitted provided:
 - i. They would not have a significant adverse impact on the viability or vitality of any defined centre or other local shopping facilities.
 - ii. In the case of farm shops, the proposal would make use of redundant or under-used buildings and the range of goods to be sold is restricted to foodstuffs, plants and rural craft products produced locally.
 - iii. In the case of garden centres, the site is accessible by walking, cycling and public transport.
- L. The creation of new, or extensions to existing, garden centres or farm shops in the open countryside and unrelated to a settlement will only be permitted if the proposed development is ancillary to, and on the site of, an existing horticultural business or existing farming operation.

National Planning Policy Framework

- 2.7 The National Planning Policy Framework contains a section 'ensuring the vitality of town centres' and another section 'promoting healthy and safe communities' which have particular significance for the application of retail policies within the SWDP. The National Planning Policy Framework requires local planning authorities to support the role that town centres play at the heart of local communities, by taking a positive approach to their growth including through the allocation of sites for the main town centre uses, e.g. shops, offices and entertainment. The sequential and impact tests are the main planning tool to ensure development enhances rather than undermines existing centres. Vitality and viability are seen nationally as the essential elements of successful retail centres. The National Planning Policy Framework section promoting healthy communities requires local planning policies and decisions to promote strong neighbourhood centres and guard against the loss of valued facilities and services.

- 2.8 Many changes to the way retail premises are used do not require a specific planning application. These changes are permitted development and to ensure the City Council is aware of all changes that affect the retail offer and facilities within the city every shopping centre within the city is surveyed at least annually. See schedules 1 to 5 for the results of the latest surveys.
- 2.9 The principal retail use classes are:
- A1 General sale of goods to visiting members of the public,
 - A2 Banks and other services to visiting members of the public,
 - A3 Cafés and restaurants, consumption of hot food on the premises,
 - A4 Pubs and other drinking establishments,
 - A5 The provision of hot food for consumption off the premises to visiting members of the public.
- 2.10 The principal permitted development rights for the change of use of retail premises are listed below. Many of these require a developer to apply for a determination as to whether prior approval is necessary. Prior approval allows the local planning authority to seek a prior approval application in certain circumstances and to consider a limited range of matters, e.g. where the proposed change is likely to result in a severe highway impact. An applicant can appeal the decision of a local planning authority to require a prior approval application or the refusal of a prior approval application.

Table 1 Permitted Development for Retail Premises.

Approved Use	Permitted Change	Conditions/Limitations
A1	To A2, A3, C3 or D2	A3 Up to 150 square metres floor area. No change of use to a betting shop. C3 up to 150 square metres. D2 up to 200 square metres. Change is not permitted to C3 or D2 in a Conservation Area.
A2	To A1, A3, C3 or D2	A3 Up to 150 square metres floor area. C3 up to 150 square metres. D2 up to 200 square metres. Change is not permitted to C3 or D2 in a Conservation Area.
A3	To A1 or A2	No change of use to a betting shop
A4	To A3, A2 or A1	Unless the building has been registered as a community asset
A5	To A3, A2 or A1	
Amusement Arcade	To C3	C3 up to 150 square metres.
Casino	To A1, A2, A3, C3 or D2	A3 Up to 150 square metres floor area. C3 up to 150 square metres.
Betting shop	To A1, A2, A3, C3 or D2	A3 Up to 150 square metres floor area. C3 up to 150 square metres. D2 up to 200 square metres. Change is not permitted to C3 or D2 in a Conservation Area.
Pay day loan shop	To A1, A2, A3, C3 or D2	A3 Up to 150 square metres floor area. C3 up to 150 square metres. D2 up to 200 square metres. Change is not permitted to C3 or D2 in a Conservation Area.

- 2.11 It is also permitted development to convert retail premises into up to two flats providing a retail element is retained. Any flats created via this permitted development right can also be changed back to retail use as permitted development.
- 2.12 Permitted development rights do not remove the need for listed building, conservation area or advertising consent which will apply to many proposed changes to premises within Worcester's retail centres.

3 Retail Development in 2018/19

3.1 Position at 31st March 2019

3.1.1 The total retail sales area within the designated centres in the City is at least 132,177 square meters. This figure is obtained from the Valuation Office Agency website and does not include the sales area of licenced premises. In 2018/19 four completed developments added 865 square meters of new retail floor space. None of this new floor space was within a designated retail centre.

3.2 Site Allocations

3.2.1 The SWDP allocates 3 sites to accommodate an anticipated need for 26,726 square metres of additional retail floor space between 2006 and 2030 within Worcester, 16,061 square metres has already been completed principally at St Martin's Quarter and there is a further 4,088 square metres of consented floor space that could in theory be built out. It is unlikely however that much of this consented floor space will come forward as planned as it is the remaining elements of implemented development approved before the global financial crash in 2007.

3.2.2 Table 2 Worcester City SWDP Retail Site Allocations

Policy Reference	Site Location	Site area (ha)
SWDP44/1	Cathedral Square: To allow for redevelopment, refurbishment, expansion of the existing shopping centre. To provide greater connectivity with the Cathedral. Protect and enhance the setting of Worcester Cathedral and neighbouring listed buildings	1.23
SWDP44/2	Fire Station / Crown Gate / Angel Place / The Butts: To allow for redevelopment, refurbishment, expansion of the existing shopping centre. To provide greater connectivity with the rest of the city centre, the riverside and the University Campus.	2.85
SWDP44/3	Trinity House / Cornmarket: To allow for redevelopment for retail and other uses with the creation of an important open space, giving improved connections to St Martin's Quarter and Shrub Hill Station.	0.98

3.3 New Build

3.3.1 Major retail development is a fairly uncommon form of development with many town centres trading highly successfully for several decades without any major additional floor space being added to the total stock of floor space. The most recent significant growth in retail floor space within the city is St Martin's Quarter where approximately 15,000 square meters of retail space and 2,000 square meters of leisure space was developed in 2011/12 on an edge of centre site.

3.3.2 The Cathedral Square development opened in 2017/18 and while this is a welcome development this scheme replaced long vacant A1 and hotel floor space with an equivalent amount of A3, A4 and D2 floor space.

3.3.3 There are currently 4 approved developments with a total net floor area of 6,786 square metres (7,088 in 2017/18 and 7,633 in 2016/17) which could add to the total stock of retail floor space within the city, see schedule 6 page 53.

3.4 Change of Use

3.4.1 In 2018/19 19 shop units (22 in 2017/18 and 10 in 2016/17) changed use class, 10 units changed from A1 to another use, 1 unit to A2, 2 units to A3, 1 unit to A4, 2 units to D1 and 4 units to Sui Generis uses.

3.4.2 On the 31st Mar 2019 there were 7 (11 in 2017/18 and 9 in 2016/17) unimplemented consents to change the use of retail units, 4 from A1 to another use and 1 from another use to A1.

3.5 Vacant Premises

3.5.1 The annual retail survey shows that there are 129 (128 in 2017/18 and 112 in 2016/17) retail units unoccupied. This 13.5% of all retail units and is above the national vacancy rate in June 2019 of 11%. 84 of the 127 vacant units have been vacant for more than one year, this is 8.8% of all units surveyed, and an increase from the 68 units that had been vacant for over a year in 2017/18.

3.5.2 Table 3 Change in Retail Vacancies

	Number of Vacant Units		
	2017	2018	2019
Worcester City Centre	62	77	70
St John's District Centre	11	11	13
Approach Corridors	21	19	22
Local Shopping Centres	3	4	4
Neighbourhood Shopping Centres	15	17	18
Total Vacant Retail Units	112	128	127
Total Retail Units	949	954	954

3.6 Limitations

3.6.1 While the City Council officers can monitor planning applications and physical changes to retail premises in the city there are other indicators of the health of retail centres such as rental values, yield, turnover and footfall. There are a couple of organisations which collect this information but the City Council does not subscribe to their services. This report is therefore not able to include this information nor provide any comparison with other retail centres whose catchment area includes Worcester, e.g. Merry Hill and Cheltenham. The South Worcestershire Development Plan review is an opportunity to illicit this information but only for a single year as a full comparison of the performance of South Worcestershire centres with other comparable and competing centres will be a significant part of the plan review retail evidence base report expected in 2019.

3.7 Convenience Stores

3.7.1 In recent years there has been a significant growth in local convenience shopping which has supplemented and in some households replaced the weekly shop to a large out of centre supermarket. This change in shopping habits has been matched by a significant growth in smaller format convenience stores

operated by the main supermarket brands. The range and quality of goods offered by the major supermarket operators in these local stores has accelerated the decline of independent food shops in local and neighbourhood shopping centres. Table 4 below lists the main convenience stores within the city. The trading area of the convenience stores operated by the major supermarkets in the city is slightly larger than the floor area of a typical store operated by the big four supermarket chains.

Table 4 Convenience stores operated by the top five major supermarkets

Location	Operator	Floor Area
8-10 Foregate Street	Tesco	400
1 Brindley Road	Tesco	295
London Road	Tesco	290
24-28 Martley Road	Tesco	291
5 Foregate Street	Sainsbury	420
46-48 Barbourne Road	Sainsbury	351
197 Bath Road	Co-op	204
46 Ombersley Road	Co-op	894
53 Gresham Road	Co-op	397
29 Ambleside Drive	Co-op	374
99 Henwick Road	Co-op	197
21 Lichfield Avenue	Co-op	309
387 Ombersley Road	Co-op	151
63-65 Canada Way	Co-op	399
Barker Street	Co-op	317
Horn Hill Road	Budgens	425
	Total Floor Space	5,714

3.8 Charity Shops

3.8.1 In previous years there has been concern at the growth in the number of charity shops opening within retail centres but there is no evidence that the number of charity shops has any impact on the footfall figures for centres where this information is collected. There are 28 charity shops in centres and retail frontages covered by this monitoring report, 14 in the City Centre, 6 in St John's District Centre, 1 in a Local Shopping Centre, 3 in Neighbourhood Shopping Centres and 4 in the City Centre Approach Corridors. There are other

stores trading in second hand goods such as CEX and Cash Converters that are not included in the above figures.

4. Conclusions

- 4.1 This is the third annual City of Worcester retail monitoring report since the adoption of the South Worcestershire Development Plan. It is not possible to establish clear trends over the past three years but is hoped that future monitors may identify whether Worcester is following national retail trends or fairing better or worse than average. In the past two years Worcester has seen a growth in personal care retailing, barbers (A1) and nail bars and tanning studios (SG) which are reported as growth sectors nationally. We may not have reached the limit of café, coffee shop and takeaway uses but some units last used for these purposes are currently vacant. On the 31st March 2019 there was 6,786 square metres of net additional floor space consented but much of this relates to outstanding floor space within part implemented schemes and this may never be built out. The only new floor space completed in 2018/19 was in out of centre locations such as Blackpole Retail Park and Nunnery Way
- 4.2 Slightly fewer retail units changed use within the City in 2018/19 compared to 22 units in 2017/18. There were a further 7 approved but unimplemented retail changes of use at the end of March 2019. Over the past three years it appears that the pace of change may have slowed slightly.
- 4.3 13.3% of all retail units surveyed were vacant, (13.4% in 2018) some of these were being refurbished and a few are long term vacancies and not currently being marketed. This compares to national average retail vacancy rate of 11% (at least 11.2% in 2018) provide by White Young Green retail consultants. This is the second consecutive year when the gap between the level of retail vacancies in the city and the national average vacancy rate widened.
- 4.4 While there is a popular view about the rapidly changing nature of retailing this change is not so rapid as to show obvious trends over the past three years and it may take at least five years before any conclusions can be drawn from the retail monitor about the direction of travel of retailing within the city.

Schedule One City Centre Central Shopping Area

There are 501 separate ground floor premises within the City Centre, (500 in 2018 and 497 in 2017) a significant number of units have a street frontage to more than one street but for the purposes of this monitor each shop or other use is counted once regardless of the size, or length of street frontage, of the unit.

Between April 2018 and March 2019 no units were lost as a result of amalgamation with adjacent units and one unit, 5 Fish Street, was created as a result of the sub-division of 5 to 7 Fish Street into two units.

In May 2018 there were 71 vacant retail units within the City Centre (77 in June 2018 and 62 in March 2017) and 51 of these units had been vacant for more than one year (41 in June 2018 and 44 in March 2017). 26 vacant units were re-occupied during 2018/19 (19 in 2017/18 and 17 in 2016/17) and 20 units became vacant (32 in 2017/18 and 18 in 2016/17). See tables 5 and 6 below for a full breakdown of the number and uses of units.

No units changed use between April 2018 and March 2019 compared to five units in 2017/18 and one unit in 2016/17. Within the Primary Retail Frontages which include only 209 of the total 500 units in the city centre.

Since April 2013 twelve units in the Primary Retail Frontages have changed use.

- Two from A1 to A2,
- Six from A1 to A3
- One From A1 to A4 unauthorised (Hop Lords 7 Pump Street)
- One from A2 to A3 and
- One form A1 to D1 and back to A1 (97a High Street)

Beyond the primary retail frontages seven units changed use during 2018/19 three of the new uses are unauthorised.

Table 5: City Centre Ground Floor Uses Summary.

Total number of Units	501				
Vacant Units	71	14.17%	Vacant for more than 1 year	51	10.18%

Schedule Three Local Shopping Centres

Within the four Local Shopping Centres (Ankerage Green, Barbourne, Cranham Drive and St Peter's) there are 66 retail units.

In June 2019 there were four vacant retail units in the Neighbourhood Shopping Centres (the same as in July 2018) and three of these units had been vacant for more than one year, (two more than in July 2018). One vacant unit was reoccupied, one unit became vacant and one unit changed use during 2018/19.

See tables 9 to 10 below for a full breakdown of the number and uses of units.

Table 9: Local Shopping Centres Ground Floor Uses Summary.

Schedule Five City Centre Approach Corridors

The City Centre approach corridors are Lowesmoor, Sidbury and The Tything/Upper Tything. The approach corridors include two properties in Bath Road and five properties in Barbourne Road. There are retail premises beyond the areas included in the Approach corridors, such as The Foregate and Foregate Street. These retail units are not within areas identified on the South Worcestershire Development Plan Policies Map and for this reason they have not be included in this monitor which is primarily concerned with the effects and effectiveness of adopted planning policy.

There are 165 separate ground floor premises within the City Centre Approach Corridors.

In June 2019 there were 22 vacant retail units within the City Centre approach corridors and 13 of these units had been vacant for more than one year. Five vacant units were reoccupied during 2018/19 and 9 units became vacant. See tables 13 and 14 below for a full breakdown of the number and uses of units.

Table 13: City Centre Approach Corridors Ground Floor Uses Summary.

Total number of Units	165				
Units Vacant	22	13.33%	Vacant for more than 1 year	13	7.88%

Glossary

Appropriate Scale	A size which is similar to neighbouring development and development in the nearest retail centre.
Commercial Service	Any service which can be purchased by visiting a shop, e.g. financial services, holidays and personal services such as nail bars.
Comparison Retail	The sale of goods that can be used more than once, e.g. clothing, furniture & electrical appliances.
Dead Frontages	Any retail or other premises that are not open during all or part of the day.
Footfall	The number of pedestrians who pass retail premises.
Impact Test	A test to assess the consequence of new retail premises on financial viability of existing shops.
Major Retail Development	A development that involves more than 1,000 square metres of retail floor space.
Permitted Development	Development that the Government has decided does not need a planning application before it can be implemented.
Sequential Test	A test to assess if there is a more suitable site for a proposed retail development within or closer to an existing retail centre.
Significant Adverse Impact	Any consequence of allowing a development which would threaten the continued success of existing shops or shopping centres.
Travel Modes	The ways people can travel, e.g. by car, by bus, on a bike or walking.
Turnover	The amount of money a shop collects from customers.
Vitality	A combination of factors used to assess a shopping centre, e.g. range of shops and services, footfall and turnover.
Yield	The ratio of income to investment.
